

FUTURE FEATURES

source maps

▶ threads + shared memory

► DOM / GC / WebIDL

▶ exceptions

► SIMD

FUTURE FEATURES

- ▶ source maps (true first-class experience)
- ▶ threads + shared memory
- ▶ DOM / GC / WebIDL
- ▶ direct WebGL binding
- ▶ multiple return values
- ▶ closures
- ▶ tail calls
- ▶ exceptions
- ▶ SIMD
- ▶ streaming async compilation
- ▶ es6 modules

Sergey Rubanov

@chicoxyzy

Devs of @kotlin, @scala_js and @elmlang languages expressed their intention to contribute to GC in #WebAssembly! 🙌🙌

Initial overview by rossberg-chromium · Pull Request #1 · W...

This is a brain dump capturing various previous discussions and some of my notes. Lots more to be said and discussed, obviously, but we have to start somewhere.
